

Onboarding – Occupation – Shall be changed to **JOB NATURE** and don't keep it as mandatory

Onboarding – Address field shall be changed to **PLACE**.

Onboarding – Past/present health history – Others is selected – **no option to enter other details**.

Enquiry – All clients data is accumulated in one area, if in some occasion we are planning to schedule assessment to a client, which we already entered in enquiry one month before, will become difficult to search the client.

Observation – Download – File is getting downloaded but while attempting to open the file says – **Failed No file**.

The screenshot shows the Lifeezy web application interface. The left sidebar contains navigation links: Home, Enquiries, Enrollment, Onboarding, Observation (selected), Planning, Follow Up, and HR. The main content area displays an 'OBSERVATION' record for a client named 'subramaniyan'. The record includes the following details:

Observation – Add row – Meal Time – **No drop down option for entering time**

Observation – after completion of 7 days observation or prior - There should be another download option where we can download the entire observation details and listed in one page, which will be very supportive for the coach to see it and prepare the plan.

Planning – Please add a **Note** Option. (just like the Objective Option)

Planning - Please remove the wake up time and bed time, this will be mentioned in Note option.

Planning – Instead of Exercise routing please change it to **Activity**.

Planning – Please remove **steps** Option (any kind of activity will be mentioned in Activity option).

Planning – Please remove Water intake (this will be mentioned in note option)

Planning – Please remove food to avoid (this will be mentioned in note option)

Planning – Add row – Day 1 – Please include Meal 1 – Please include Meal 1 timing (meal timing shall be in this manner – 07:00 AM to 07:30 AM (we shall ask them to take the meals in between this timing).
